

2007 Colorado Tree Coalition CommuniTree Awards

A **Special Recognition Plaque** was presented to Jim and Jean Scharfenberg for their commitment in developing the Trees Across Arvada program. This effort involved the reviewing and selecting of trees suitable for the streets of Arvada. They took tree orders from interested residents and coordinated the handling and distribution of the trees when they arrived at the delivery point, Arvada Majestic View Nature Center. In 2007, Trees Across Arvada provided 460 shade trees for Arvada residents. Indeed, it was a pleasure to recognize this hard working, tree loving couple!

The Colorado Tree Coalition's esteemed **CommuniTree Award** was presented to Denver's The Park People for their long running program, Denver Digs Trees. This program has planted a significant number of trees in a multitude of Denver neighborhoods over the many years it has been operating. Denver Digs Trees is a great example of planting coordination and volunteer mobilization to get trees planted. Thank you to The Park People for making Denver a better place!
